

Begin the conversation on campus, and keep it flowing downtown!

"Towards Sustainable Coexistence With Wild animals: Monitoring Wildlife Use on I-5"

Join Us to learn about the consequences of having heavily-travelled I-5 cut through our incredibly biodiverse local landscape, and to explore new possibilities for more sustainable coexistence with wildlife.

Presenter:

Dr. Karen Mager,
Associate Professor of
Environmental Science,
Policy, & Sustainability,
and Biology

24 OCT
4PM-5PM
presentation
